

KINDERGARTEN TEAM NEWS

JANUARY

Week of 1/18-1/22

Parent Info: We are working on coming up with our own sentences. The students seem to have a hard time with this. Not just trying to write it on their own, but actually come up with the sentence. When working on their sight words and spelling words please ask them to give you a sentence for each word (not to write just to practice making sentences).

We have a few more words on the current sight word list. I am so proud of the students as they are working toward 30 sight words. This is AMAZING!!!!

Reading groups went well. Miss Pat and I are meeting with the students individually as it is easier to hear them since we have to deal with masks. This week we will be moving on to another book and may move up a level

This week we will be working on...

Reading/Phonics: The students are doing a great job trying to put words in alphabetical order. We will eventually move to having to write the words, this will be a bit harder.

Math: We will continue working on unit 7. This unit is working on subtraction. The few activities that we have done they have done a great job! The class did a great job on addition (unit 6).

Writing: The students are working really hard on writing sentences. They are using capital letters and punctuation along with making spaces between words. We will be continuing to work on telling sentence and an asking sentence.

SS/Science: We have been working on Miss Dianne's science unit -Nocturnal Animals. Each week we are given two animals to talk about - ask your student what they have learned. We will be talking about hibernation, adaption, and migration. We will continue to discuss Martin Luther King Jr.
