

KINDERGARTEN TEAM NEWS

April

Week of 4/25-4/30

Parent Info: The last week of April - Time needs to slow down! We are working on our countdown to the last week by doing our alphabet back wards. I think it is fun to do another quick practice of writing our letters and have a fun activity to go along with it. Please see the schedule on the homework page. This week we will be flying off to Antarctica. This will be a quick trip because it is WAY TO COLD to stay too long. Friday we went to the Hydroponic Lab to check on our plants. We did not see much as far as growth in our containers but other classes had a lot. I think my lack of green thumb is showing-haha. We hopefully will see some growth this week and will continue to check on them for the weeks ahead.

GRADUATION: Park Shore will NOT be having a graduation this year due to COVID. We will be video taping and sending each of you a copy of it along with a photo montage of the year. I understand this is disappointing but I will make it as special as possible for you and the kids. I think we just need to appreciate the fact that we made it the whole school year together.

This week we will be working on...

Reading/Phonics: We are working on word families. We will continue to work on these. We are working on vowels in class and will continue to work on this. We are going to have a few activities that the students will read the directions and have to complete the activity on their own.

Math: We started Unit 12 last week and will continue to work on our shapes. We are working on flat shapes and solid shapes.

Writing: We have been writing about our continents. Each continent we visit we have made a fact book. We write about the climate, language, animals, and other facts. We will be doing more writing on our own and sharing it with the class.

HWT: It's the book that won't quit. We will continue to work on this.

SS/Science: We have been to Europe, Asia and Australia. The students really enjoy Park Shore Air. They love that they get to have their snack (give to them by their very friendly stewardess) on the plane. I am so happy they are having fun while we learn about the continents. I hope they are having as much fun as I am with this unit.
