

KINDERGARTEN TEAM NEWS

April Week of 4/11-4/15

Parent Info: We have been enjoying the spring weather and love being able to go on the playgrounds. The students need that break from the classroom and get some fresh air. Hopefully the weather will cooperate and allow us plenty of playground/outside opportunities. With that being said we will wear jackets that were worn in, but if it gets warmer and jackets aren't needed in the afternoon we will let the children remove them. Please have your student wear sneakers or appropriate shoes to be running and climbing on the playgrounds and fields. We will continue to journey through the Solar System. I hope they are having fun reading books and watching videos about the different planets. Their packet will go home with them at the end of the unit.

As the end of the year approaches we are trying to get the students to be more independent during snack and lunch. We are encouraging them to try to open their own packaging - Please try to do this at home as well. It is not that they won't have someone to help next year but they will hopefully be in a cafeteria with lots of students and if they can help themselves that will be great.

I have to admit that saying the end of the year is approaching is a bit crazy to me. We have so many more things to accomplish in the next two months, but seeing where these students are as to where they were in September is truly amazing.

This week we will be working on...

Reading/Phonics: We are still working on word families. We will continue to work on vowels as well. We are struggling a bit to hear these sound within a word. We are working on Magic E, Bossy R, and When 2 vowels sit together. These are things that we have already talked about as we have gone over sight words and sentences, but will dive a bit deeper.

Math: We will finish unit 9 and will have the assessment.

Writing: We have been writing about our Solar System. Each Planet we visit we write down a few facts in our packet. We are also working on forming our letters correctly. We will work on doing our best when writing and coloring.

HWT: It's the book that wont quit. We will continue to work on this.

SS/Science: We have been to Mercury, Venus, Earth, Mars, and Jupiter. We will continue our journey and talk about what it would be like to be an astronaut.

Special Happenings:

Park Shore will be closed April 15th - April 22nd

We have a date for GRADUATION - We will be graduating on Wednesday, June 8th. I till have not been given a time yet but once I do we will get that to you ASAP.

KINDERGARTEN TEAM HOMEWORK

Week of 4/11-4/15

This weeks Homework is as follows:

Monday: Go over Sight Words
 Number Writing

Tuesday: Go over Sight Words
 Number Writing

Wednesday: Go over Sight Words

Please look at the packet that was given regarding an assignment that should be done during the break. This is not supposed to be anything but a fun activity for the student and the family to do. After you look at the information if you have any questions please contact me.

Thursday: Go over Sight Words

Please continue to use the flash cards, games, and writing practice activities that I send home. The continued practice with each of these will help your student with their reading and writing.
