### UNITS OF STUDY

- **CIRCLE TIME:** "Hello" and "Days of the Week" songs in English and in Spanish. Daily talk about our feelings. Weather discussion throughout the week. Continuation of the seasons and months of the year.
- **LETTER OF THE WEEK:** Review of the alphabet with a focus on the letter Gg, its sound and words that start with the letter. Difference between uppercase and lowercase letter.
- **COLOR:** Review all colors with a focus on Winter colors.
- **SHAPE:** Review all shapes.
- **READ ALOUD:** Stories related to different Holidays, Winter and books handpicked by students. Learn the basic parts of a book (front cover, back cover, spine, pages, book title, author, and illustrator).
- **MATH:** Number Recognition. Counting from 1-20. Daily Calendar: counting the days of the week, and each number of the day. Review and practice of sequencing, patterns, and graphing on unit theme.
- **SCIENCE IN CLASS:** Winter themed STEM experiments! We will be creating a "Snowstorm" in a jar with water, baby oil, Alka-Seltzer tablets, white paint, glitter, and food coloring. Alka-Seltzer tablets are made of baking soda and citric acid. Water activates a reaction between the acid and the baking soda, making it fizz and bubble. These bubbles of water and white paint push their way through the heavy oil to the surface of the jar, causing a storm effect. We will also be making our own homemade Winter slime. For this fine motor skill experiment we will be using glue, glitter, saline solution, and food coloring. Slime is the product of a chemical reaction where the molecules of the glue and an activator cross-link to form a new substance. Slime is a fluid that changes viscosity, or ability to flow, depending on the stress applied to it.
- **FINE MOTOR SKILLS:** Continuation of proper pencil grip, tracing, the use of glue sticks, and the use of scissors.
- **WRITING:** Students' name recognition, spelling, and tracing. In class worksheets on various topics in unit.
