A note from the teacher...

I can't believe it's already March! This is the long stretch of the school year where there are no big breaks or days off, and we're all pushing through together. But this is also such an exciting time because it's when so many kids have their big "Aha!" moments—things are really starting to stick! We've been hearing so many full sentences in the classroom, and sometimes we just stop and wonder, "where did you get these words from?" The kids are even starting to look older! When we look back at pictures from the first day of school, it's amazing to see how much they've grown right before our eyes. Every single day is filled with so much learning, and it's incredible to watch them blossom!

Highlights from the week...
